

ROAD SEGREGATOR SH75

ROAD SEGREGATOR

THE VISIBILITY GIVEN BY ITS HEIGHT AND REFLECTIVE STRIPS WHEN COMBINED WITH THE STRENGTH AND DURABILITY OF ITS BASE GENERATES A DOUBLE FUNCTIONALITY; IT IS A VISUAL GUIDE AND AT THE SAME TIME PREVENTS VEHICULAR PASSAGE, EFFECTIVELY PROTECTING PEDESTRIANS AND CYCLISTS.

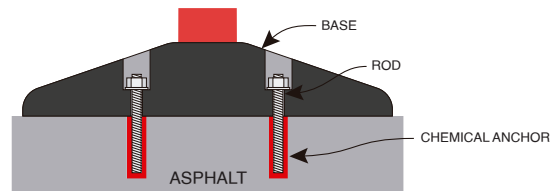

THE BASE IN ADDITION TO SEGREGATING PROTECTS FIXINGS THAT WOULD OTHERWISE BE EXPOSED AND DAMAGED BY AUTOMOBILES. IN THIS WAY A DURABLE PRODUCT IS ACHIEVED WITHOUT SPENT REFLECTANTS.

APPLICATIONS

CYCLEWAYS, PEDESTRIAN AND VEHICULAR FLOWS SEGREGATION.

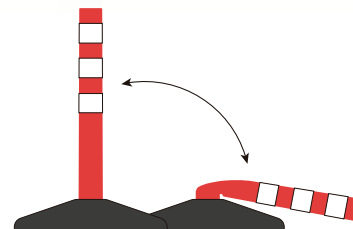

TECHNICAL INFORMATION

TOTAL HEIGHT	75CM
BASE MATERIAL	HIGH RESISTANT PLASTIC 90 SHORE A
POST MATERIAL	PU FLEXIBLE
REFLECTIVES	YES, 3 REFLECTIVE BANDS
ANCHOR TYPE	ANCHOR ROD EPOXY HILTI ADHESIVE
ANCHOR QTY	2 ANCHORS

ANCHOR ROD
THREAD 1/2 X 165mm

CHEMICAL ANCHOR
THREAD 1/2 X 150mm

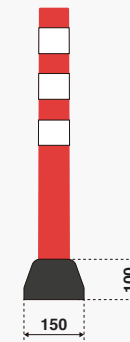

SUPERIOR FLEXIBILITY

THE POLYURETHANE MATERIAL ALLOWS IT TO RESIST CRUSHING AND RISE WITHOUT SUFFERING DAMAGE.
